

## Ministry Report 2016

### THE **SOUND** OF A CLEAR PLAN

A battle rages in our culture over the very lives of our youth and young adults. Popular music, TV and films normalize risky sexual behavior and promote abortion as an 'easy' solution. Obria plans to win the battle, one patient and one clinic at a time.

Obria Medical Clinics offer a refuge of compassionate healthcare that respects the dignity of every patient at every decision point, and empowers them to make informed decisions.

**The Obria Group is the only trademarked, life-affirming national brand of affiliated clinics.**

Leveraging 35 years of experience, Obria has developed a nationally acclaimed model for pregnancy and reproductive health care clinics that is now being replicated nationally to provide alternatives to abortion for hundreds of thousands of women.

### YOUR GIFT MADE AN **IMPACT**

**570 babies** saved this year

**12,445 patient interactions** this year

**20 successful abortion pill reversals** since last year

**1,826 STD tests done** this year

**941 ultrasounds performed** this year

### OUR CURRENT REACH

**5 Obria Medical Clinics**  
(Orange, Long Beach, Buena Park, Mission Viejo, and mobile clinic)

**17 Obria Group Affiliates**

**OUR MISSION:** Being led by God, we offer medical services pertaining to education and support for family, marriage, sexual and reproductive health consistent with the inherent value of every human life.

*We cannot expand without your continued support.*

# JAKE'S BIRTH

GIVING MOTHERS AND BABIES A SECOND CHANCE

When single mother, Nurian Cortez found out she was pregnant a second time, she thought this was just another one of her mistakes.

Nurian contacted an abortion clinic, and they immediately prescribed the abortion pill.

After taking the first pill, Nurian was consumed with regret. She called out to God, praying for some way to go back and change what she had done. A friend suggested she contact Obria.

Obria had a solution to save her child. She began the abortion pill reversal process and after six weeks, came to Obria for a follow-up to hear the sound she had been hoping for—the strong heartbeat of her baby boy!

Nurian continued to have a healthy pregnancy and on April 28, 2016 delivered a beautiful, strong baby: Jake Cortez.

Medication abortions comprise 43% of pregnancy terminations at Planned Parenthood clinics.

## TELEMEDICINE

Where Abortion Begins Today

**8 of 10** high schoolers own a smartphone

**71%** of millennials want to engage with their healthcare via a mobile app

**Obria's mobile app instantly connects users to a trusted Obria medical professional via text or video chat on their smartphone. This is our on-line virtual medical clinic!**

## NATIONAL EXPANSION

Actively working in  
12 states

*"We believe in the mission to unite pregnancy clinics across America and are therefore so excited to become Obria's FIRST affiliate. It's exciting to think of the potential as pregnancy clinics work together to save precious innocent lives and offer women true 'choice' and freedom from the pressure to abort."*
